

## ALL AGAINST PANDEMIC

**MISSION  
BLOCK AND  
DESTROY  
COVID-19**

**THE POWER OF STEM CELLS THEY DESTROY THE COVID-19  
AND REGENERATE THE ORGANISM AFFECTED WITH SEQUELS**

**Greater Good  
Foundation**

## **THE WORLD PROGRAM ALL AGAINST PANDEMIC**

It is a plan of the World Organization for Peace and its 162 delegations in the same number of countries that represent it.

Together with the OMPP WOF, the Greater Good Foundation of California participates, which is a pioneer in Wharton's Jelly stem cells, which is carried out through its owner Dr. Rick Reyes, along with 870 medical specialists in the four cardinal points of the planet and all with the same objective, to regenerate the organisms of tens of millions of people affected by the consequences caused by the same COVID-19.

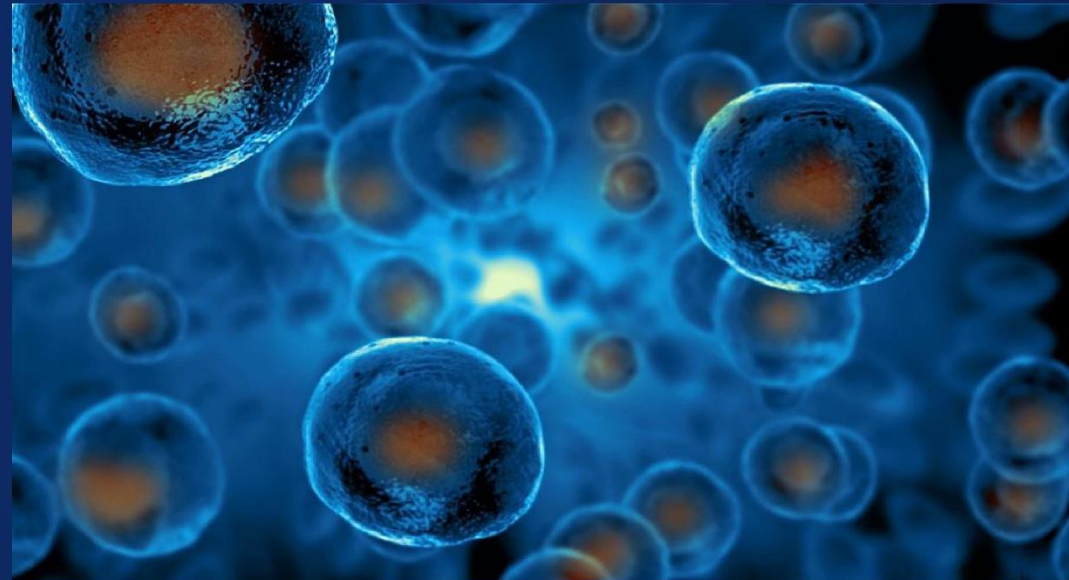

The Humanitarian Mission is to quickly cut the chain of infections and regenerate the affected organisms in all areas of the planet in a joint plan with 193 participating countries.

# ONLY STEM CELLS DESTROY COVID-19

---

**UMBILICAL  
CORD STEM  
CELLS**

**WORTON'S JELLY  
WITH EXOSOMES**

Greater Good  
Foundation

## **STEM CELLS DESTROY COVID-19 AND THE CELLS INJURED BY THE VIRUS AND OTHER AFFECTIONS WILL REGENERATE**

The broad power developed by Wharton's Jelly umbilical cord stem cells, which after being thawed only have minutes to be applied, one hundred percent reaching the affected organism alive.

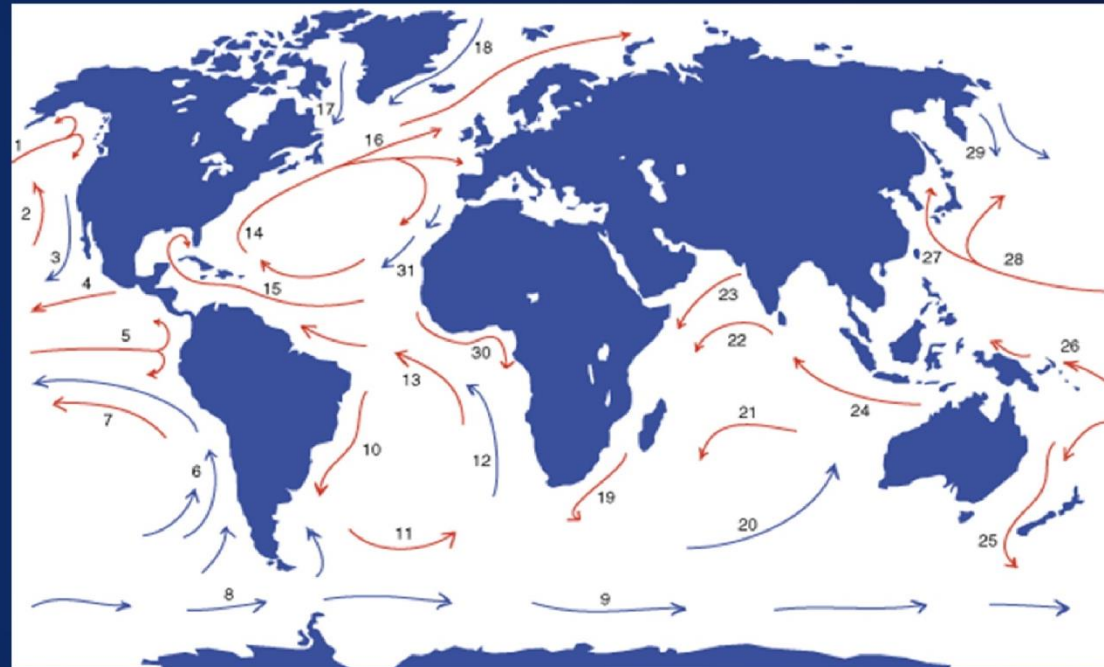

In the case of COVID-19, they as foreign cells enter to locate as a GPS and it is focused on the virus, there they block it and by destroying it, it begins its restorative and regenerative work.

At the end of their function, they are eliminated by the body that was assisted by them.

The stem cells give a 98% of feasibility in their treatment of positive results in affected by Covid, achieving recovery in 24, 48 and 72 hours after applying the WHARTON'S JELLY cells with Exosomes..

# 193 PROGRAM UNITED COUNTRIES

**CUT THE  
CHAIN OF  
CONTAGES AND  
REGENERATE  
THE SEQUELS**

**Greater Good  
Foundation**

## **IN THE FACE OF THE COVID-19 PANDEMIC, THEY SEEKS TO ACHIEVE PARTICIPATION**

TOTAL OF THE 193 UN MEMBER COUNTRIES AND NON-MEMBER COUNTRIES.

The sole objective of this operation is to delineate the joint effort between all nations and thus stop the solid chain of COVID-19 infections and all its various mutations.

# TARGET

## CUT THE CHAIN OF SPREAD

### BORDERS – AIRPORTS

Greater Good  
Foundation

## DOUBLE CONTROL AT BORDERS AND AIRPORTS

Entry and exit is recommended according to the manual of the High World Security Protocol offered by OMPP WOFP to the participating Nations, a double check.

Those who enter must present a confirmed PCR negative for COVID-19 and when entering the control, a new rapid PCR or a 5-minute ultra-rapid analysis kit is suggested as a double security measure.

So who leaves, offers it at the border that they will enter and they will be able to double-check each person there.

# SANITARY OPERATION

## AIRPORTS, LAND AND MARITIME BORDERS

**IMMUNICE**  
**NATURAL IMMUNIZER OF ANTIVIRAL**  
**PLANTS WITH WIDE PROTECTIVE POWER**

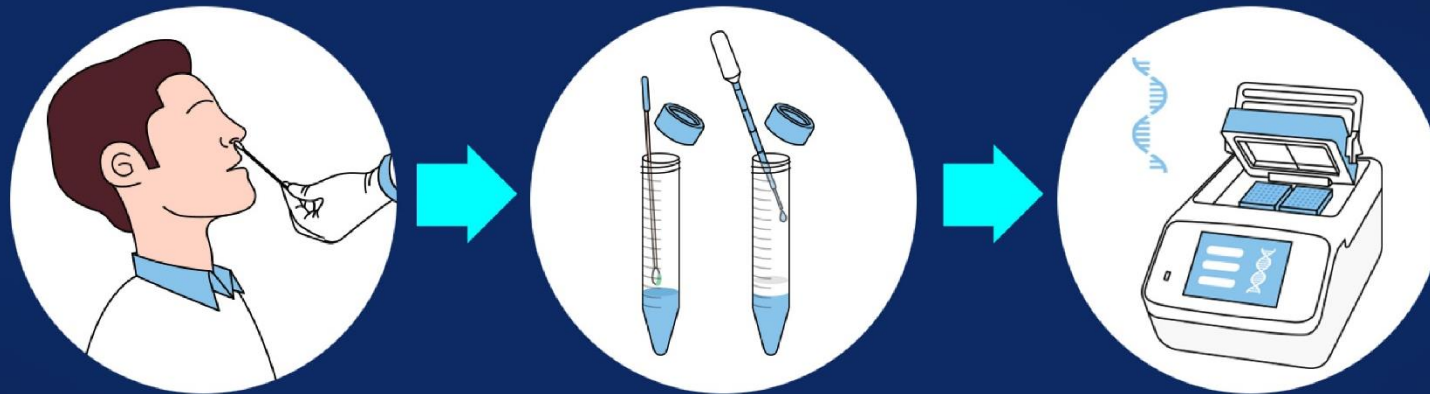

**Greater Good  
Foundation**

The sanitary control operation in Airports and Borders, Terrenas and Marinas is suggested to be strict in order to safely protect each citizen who is not infected by a failure of a third party.

There are open borders without barriers throughout the earth, which hurts each nation in its established measures.

In the economic financial aid fund, the SolGen PCR Kit and the second ultra-fast PAZBIO kit will be offered to low-income countries at no cost and an IMMUNICE immunizer system with high protection power, from antiviral plants without collateral effects, is 100 % natural.

# NATIONAL HEALTH CENSUS DOOR TO DOOR

VERIFY THE HEALTH STATUS OF COVID-19  
IN EACH COUNTRY AND A MAP OF THOSE AFFECTED BY SEQUELS

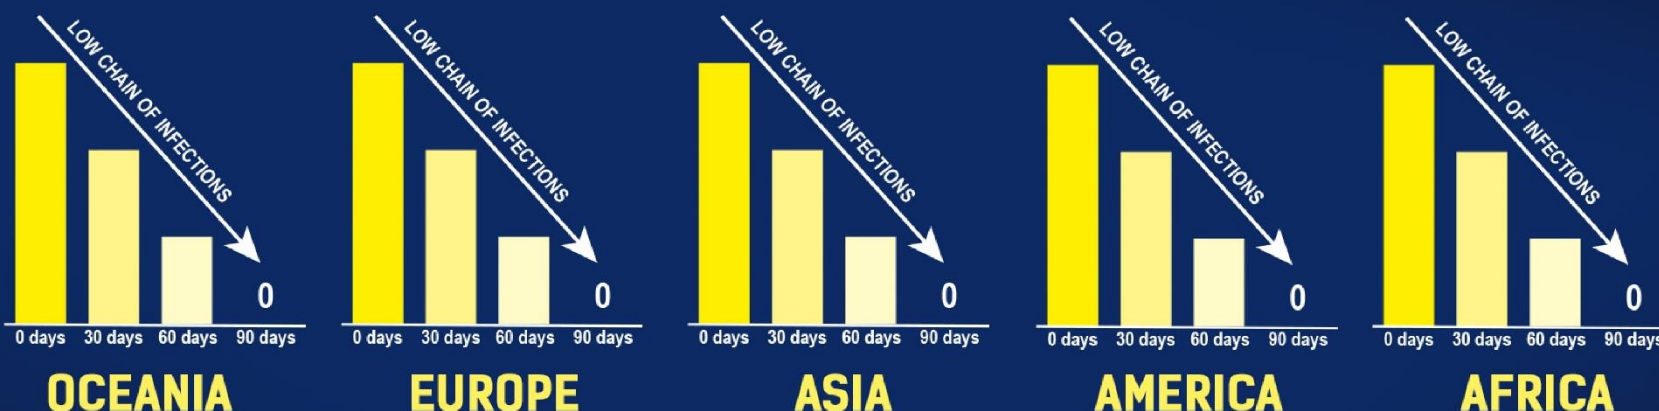

**Greater Good  
Foundation**

In the Manual of the high Protocol of Sanitary Security COVID-19, it recommends to each participating country, to carry out a National Health Mapping convened or door to door, where the true state of the situation of each country will be known.

This contributes to taking the affected person on time and assisting him quickly, thus the chain of infections is reduced to a minimum level.

**193 UN MEMBER NATIONS AND NON-MEMBERS  
ON FIVE CONTINENTS HOW THEY EVOLVE IN JOINT  
MISSION IN CONTROLLING THE VIRUS SARS COVID-19**

**AMONG ALL YOU CAN DOWNLOAD  
SPREADS FROM PERSON TO PERSON 30/60/90 DAYS**

**Greater Good  
Foundation**

Following the same guideline, all nations can stop the chain of infections in a period of 30, 60 and 90 days, where the virus can end and the chain of infections continues for a longer time and only together can it be contained.

Protocols and Licenses are delivered so that each country can process them and accelerate the World Plan that seeks to save lives in those who have sequelae.

4 LABORATORIES IN LOS ANGELES – SEOUL KOREA AND SIDNEY  
SUPPLIERS OF SUPPLIES WITH OTHERS IN THE WORLD

**PLAN MUNDIAL**

WORLD PLAN  
DELIVERY OF PROTOCOLS AND LICENSES TO PROCESS  
UMBILICAL CORD STEM CELLS IN EACH COUNTRY  
WORTON'S JELLY  
185 STEM CELL LABORATORIES

**Greater Good  
Foundation**

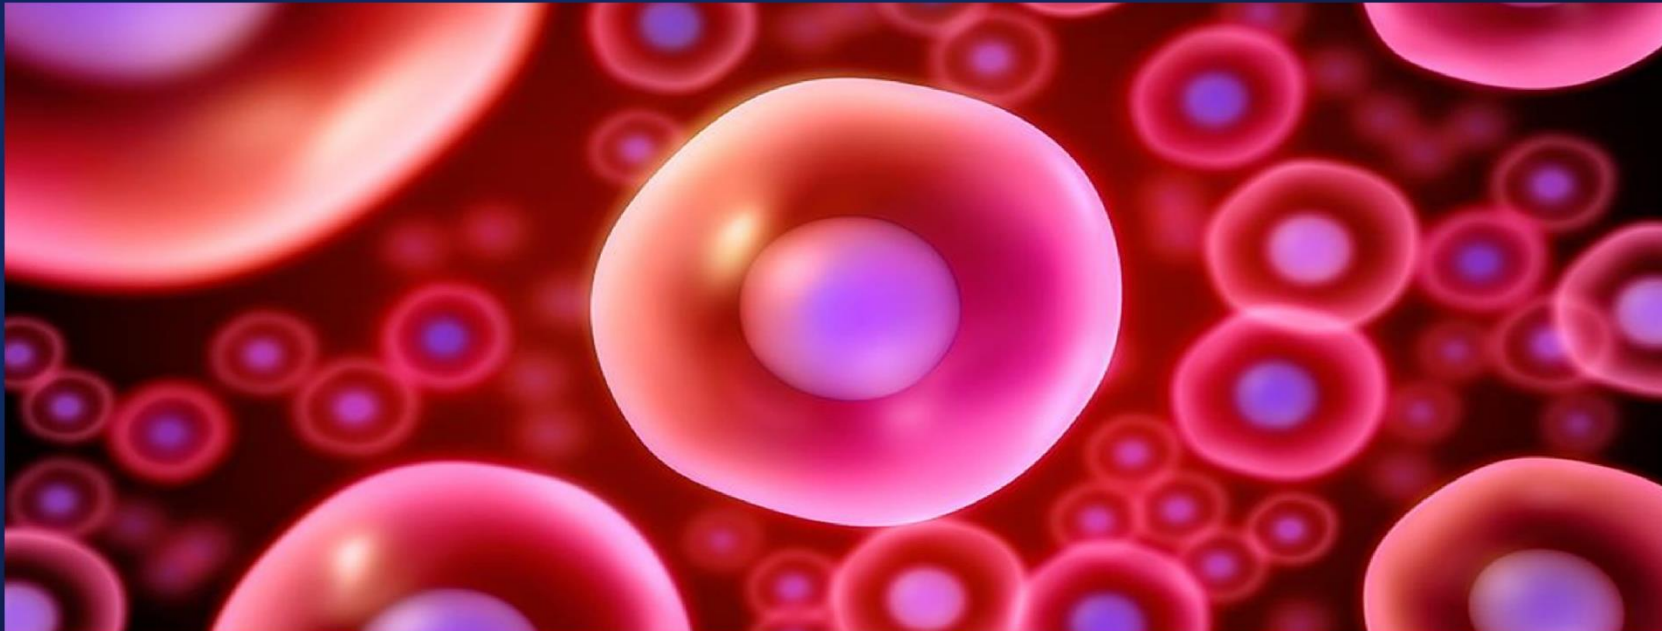

Protocols and Licenses are delivered so that each country can process them and accelerate the World Plan that seeks to save lives in those who have sequels.

The Greater Good Foundation chaired by Dr. Rick Reyes, who after thirty-five years of continuous research, which led him to develop this new treatment that he manages to recover and regenerate.

## SAVING STEM CELLS

---

REGENERATE HOSPITALIZED PATIENTS, TUBED AND WITH SEQUELS

**Greater Good  
Foundation**

It has been proven by thousands of testimonies of those recovered from COVID-19, that the only solution to the dangerous consequences left by this virus is to apply stem cells from the umbilical cord origin of normal childbirth from a healthy mother, whose cells are called Wharton's Jelly with Exosomes.

They manage to regenerate sequelae in hospitalized patients and recover them within 72 hours of applying the Wharton's Jelly Stem Cells to the umbilical cord with gelatinous substances.

Greater Good  
Foundation

**THIS PROGRAM IS MADE POSSIBLE WITH  
THE GLOBAL FUND FOR ECONOMIC FINANCIAL  
UNLOCKING IN BACK**

**USED FOR THE GLOBAL  
HEALTH EMERGENCY  
PANDEMIC COVID-19**

**FUNDS IN WHOLESALE BANKS  
RETAINED AND RELEASED FOR  
HEALTH IN 193 NATIONS**

**Greater Good  
Foundation**

The World Organization for Peace OMPP WOFP calls for participation as a solidarity petition, CREATING THE CONTINGENCY FUND, urging action measures and promoting joint efforts to combat the spread of the virus and global epidemiological sanitation.

This in the concept of International appeal, is created to avoid greater damage to the world population due to the devastating effects of the coronavirus in the world, with a sharp deterioration in health and economies, which in this long period of the pandemic has mainly affected marginal communities and vulnerable areas.
